PROFILE

Software developer with over 6 years of experience in web development. With a strong focus on creating accessible, scalable, and visually stunning user interfaces. My best position is where business strategy and development intersect. Bringing thoughtful user experiences to life through clean, efficient code and performance-focused solutions. Currently working as a Senior Front-End Engineer at Softtek, building and maintaining reusable UI components to ensure a functional, inclusive platform aligned with web standards.

WORK EXPERIENCE

FRONT-END DEVELOPER

Sept 2023 - Present

Softtek · SERES

Working on a management application focused on electronic invoicing and document exchange. Developing new features and adapting functionalities to meet client needs.

TEAM LEADER

Jun 2021 - Sept 2023

Power Electronics

Developed web applications for the renewable energy sector including support tools, logistics systems, and data monitoring platforms. Managed a development team, handling workflow planning, task prioritization, estimations, and code reviews.

FULL-STACK DEVELOPER

Mar 2019 - Jun 2021

Finamatrix

Developed full-stack web applications in the financial sector, working directly with external clients on task planning and collaborative development.

EDI CONSULTANT

Oct 2017 - Mar 2019

Edicom

Conducted client meetings and worked on data conversion mapping (XML, EDI, IDOC). Configured data flows and B2B connections.

MOBILE APP DEVELOPER

Jan 2016 - Oct 2017

Intelectiva

Developed mobile applications for Android and iOS with focus on iOS.
